Docenti e Ricercatori Area Trasporti Facoltà di Ingegneria

Bio of Pierre LACONTE
pierre.laconte@ffue.org

- Dr of Laws and Dr of Economics (Catholic University of Louvain – UCL - Belgium). Dr H.c. (Napier University, Edinburgh).
- President, Foundation for the Urban Environment, Brussels (www.ffue.org).
- President, International Society of City and Regional Planners (www.isocarp.org)
- Vice-President, European Environment Agency Scientific Committee.
- Honorary Secretary General of the International Association of Public Transport (www.uitp.org).

- Was one of the three planners in charge of the master plan and the architectural coordination of Louvain-la-Neuve, a new university town developed from 1968 by the UCL near Brussels, together with a new railway station. Louvain-la-Neuve won the Abercrombie Award of the International Union of Architects in 1982. It presently has a population of around 40.000.
- Member of the Belgian Government Delegation at Habitat I (1976) and II (1996) and at the Kyoto Conference on Climate (1997).
- UN Habitat Scroll of Honour Award (1999)

- Member, Akademie der Künste, Berlin (Sektion Baukunst).
- Advisory Committee member of CERTU (French national research centre for the built environment).
- Member of the Editorial Board, “Progress in Planning” (Elsevier)
- Council member, Europa Nostra (European Federation of heritage organisations),
- Chair of the Europa Nostra Industrial and Engineering Heritage Taskforce.

- His book in French on urban change and property markets (“Mutations urbaines et marchés immobiliers” - 1978) won the Credit Communal/Gemeentekrediet Award 1974-1978 for Law and Economics.
- Edited publications include “Water Resources and Land-Use Planning; A Systems Approach”, “Human and Energy Factors in Urban Planning: A Systems Approach” (both 1982) and “Brussels: Perspectives on a European Capital” (co-edited with Carola Hein).
- This latest publication shared the Society for Human Ecology’s 2008 Award for the best publication of the year in that field.

- Special areas of interest: High density-low rise urban design, energy savings in neighbourhood development and heritage conservation, impact of transport on land-use and the environment.
